

Code of Federal Regulations

▼ Sec. 25.303

Part 25 AIRWORTHINESS STANDARDS: TRANSPORT CATEGORY AIRPLANES	
Subpart C--Structure	General

Sec. 25.303

Factor of safety.

[Unless otherwise specified, a factor of safety of 1.5 must be applied to the prescribed limit load which are considered external loads on the structure. When a loading condition is prescribed in terms of ultimate loads, a factor of safety need not be applied unless otherwise specified.]

Amdt. 25-23, Eff. 5/8/70
