

Federal Aviation Regulation

This Section of FAR is No Longer Current.

▼ Sec. 33.15

Part 33 AIRWORTHINESS STANDARDS: AIRCRAFT ENGINES	
Subpart B--Design and Construction; General	

Sec. 33.15

Materials.

The suitability and durability of the materials used in the engine must be established on a basis of experience or tests. Each material must conform to approved specifications to ensure that it has the strength and other properties assumed in the design data.
