

Federal Aviation Regulation

This Section of FAR is No Longer Current.

▼ Sec. 33.19

Part 33 AIRWORTHINESS STANDARDS: AIRCRAFT ENGINES	
Subpart B--Design and Construction; General	

Sec. 33.19

Durability.

Engine design and construction must minimize the development of an unsafe condition of the engine between overhaul periods. The design of the compressor and turbine rotor cases must provide for the containment of damage from rotor blade failure.
